THE LOWEST BIDDER. Bonner Claims to B', But Got Badly

William T. Bonner, manufacturers' agent and contracting engineer, directed THE Bgg's attention to certain facts in connection the letting of the contract Tuesday last for the boilers to replace those in the hospital of the insane at Lincoln, which exploded several weeks ago. Bids were called for and opened on the day mentioned and the contract was awarded to G. W. Downing & Turnbull of Lincoln, for \$7,728. The material called for was five boilers and two entires. taxes.

All Princes of the Orient are asked to assist in conferring the Oriental degree upon twelve candidates in Gate City hall to-night at 9 o'clock.

On next Tuesday night the Turnverein will give another ladies' sociable which will include a gymnastic exhibition.

Mr. Benner's bid was for \$7,830, and included a 74-horse power Berryman heater worth \$325; a large steam pump worth \$200, and agreed to give an insurance on \$10,000, which would cost about \$300; he also offered a policy of insurance with each boiler of \$400. All these extras, he says, would reduce his bid to \$6,915, which would make it by far the lowest. He claims that it was injustice to him and favoritism for Lincoln.

Opose A Bankrupt Law.

Some time ago President Martin, of the board of trade, appointed Benjamin Gallagher, of the wholesale grocery firm of Paxton & Gallagher, as a delegate to the national convention of the representative commercial bodies of the United States, which convened in St. Louis yesterday. The invitation to the board of trade was extended by the associated wholesale grocers of St. Louis, and the president of the board accordingly delegated an Omaha greeer to attend. The meeting had been called for the purpose of formulating an equitable bankrupt act, which is to be submitted to congress.

As Mr. Gallagher's business was such that

he could not absent himself from it, he prehe could not absent himself from it, he pre-rared a circular, which was signed by a large number of jobbers and bankers, and for-warded it to the secretary of the convention, where it will be read to-day. The circular is a protest against the introduction of a bankrupt law, holding that such a law would, like the enactment of a few years age, be more injurious than otherwise to the mer-

Enum rating School Children. Among the persons who will take the school consus this year are Patrick Foley, H, W. Roche, Job Marriot, A. L. Kulp, H. W. Reynolds, S. W. Tuthill and Frank Kemmer. Two more are yet to be appointed, making one to each ward in the city. Most of these will commence work next Monday, although they may begin Saturday if they choose as they will be provided with the proper blanks to-morrow. Their only work is to find the number of children of school age in the city, that is between the ages of five and twenty-one years. Any children who may become five years old between this and April I are to be included, as the census will bear the date of April I. All of these names must be of actual residents as transients are not included. It is on the basis of this enumeration that the state apportionment is distributed.

Exterminate the Dogs.

A citizen sends the following communication to THE BEE: "Your paper of yesterday contained an account of a man that shot at a dog which attacked him in the street, and while the subject is thus brought up, I would suggest that you send some of your men around to investigate the matter a little. Omaha, doubtless, contains, within its limits, more nasty mangy curs than can be found anywhere else in Christendom, except, perhaps, it may be an Indian village. It's about time something was done to rid the town of them. I have been attacked three times by large ferocious brutes, and once they made me execute a masterly retreat to get out of the way. This occurred on Dodge, between Fourteenth and Fifteenth. By all means let them be exterminated.

The council held an executive session Tuesday night, in which plans, specifications and other matters relating to the crection of a city hall were discussed. It was decided that the dimensions of the structure shall be 120 feet on Farnam, 125 feet on Eighteenth and five stories high. This will leave an opening of twelve feet for light and air along the east side. The first proposition contemplated a building 125 feet square, but it was found that this would leave only six feet of space between that and the Bez building, and inasmuch as the most desirable offices will be on that side, it was thought that space would hardly be wide enough. Six weeks will be given for making bids and drawing plans.

A distinguished party of tourists, bound for Washington, passed through Omaha yesterday afternoon over the Burlington in a special car, en route to Washington. It consisted of the following officials of Nebraska: Attorney General Leese, Auditor Benton, Treasurer Hill, Commissioner Steen, Judge Mason, Judge Munger, H. M. Waring, Gil-bert F. Laws and the state board of trans-portation. The party will go to Washington for the purpose of attending a meeting of the railroad commission which opens at that place March 5. action in approving the above ordinances in a communication to that body next Tuesday.

Fast Stock. Yesterday morning seven car loads of fast horses came in over the Union Pacific as first section of train No. 2. Among the norses was Delsur with a trotting record of 2:24; Annie, with a pacing record of 2:1314; Stamboul, the great stallion with a record of Stanboul, the great stallon with a record of 2:145, and for which one week ago yesterday W. S. Hobart paid to L. J. Rose, \$50,000. Mascot, the great yearling, for which Hobart paid \$12,000, was also among the number. They are owned by Messrs. Rose and Hobart, noted horsemen of California, and will be put on the market in New York March 7 by the Kellogg Horse company. The horses were in baggage cars, and were taken east by the Rock Island.

The Clarkson's Clinic. The new operating room to be added to the Bishop Clarkson Memorial hospital by the donation of \$1,000 by Mrs. William B. Ogden of New York, will be built upon one of the broad rear piazzas. The plans of the room have already been drawn and suggest a pretty exterior and everything very complete on the inside. The size will be 15x15

The necessity of the room has long been felt as an average of from three to four operations a week have been performed there during the last few months, and as rooms adjoining the wards were used, the effect was anything but advantageous to the other

Held for Trial. Deputy United States Marshal Showalter brought in a prisoner from Crawford Wednesday evening, Robert Ropel by name, who is charged with sending obscene matter through the mails. He was taken before Commis-sioner Anderson, and held for trial at the next term of court.

Where Is Shaeffer.

Robert Shaeffer is wanted in Kennard, Neb., where he left his bondsmen \$1,200 in the lurch. The money he embezzled belongs to the township in which he lived. He was in Omaha last week, and since then has not been seen.

Captain Green met a gentleman named Cambell who says that on the 21st he occapied the same seat with Shaeffer on the Wabash as far as Moberly. Shaeffer told him he was on his way to St. Louis, where he had business with the Simmons hardware com-pany, and said that he intended to visit for a few days in that city.

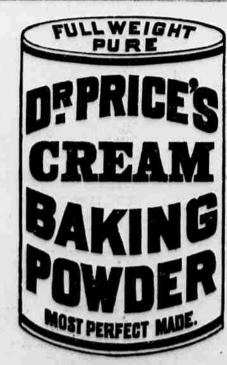

A Lady's Mastiff.

Three month's ago, a magnificent mastiff belonging to Miss May Dundy either strayed away or was stolen and his whereabouts were unknown until Wednesday night. That night, the animal wandered around, and happening to meet Officer Dempsey, soon ingratiated himself into the graces of that gentleman. The latter supposed the animal would be claimed by somebody and took him to the station. The fair owner reclaimed the mastiff and received many congratulations from gallant friends who saw her with the animal waiting for a car at Fifteenth and Farnam

I am satisfied that Cancer is hereditary in my family. My father fied of it, a sister of my mother died, and my own sister died of it. My feelings may be imagined, then, when the horible disease made its appearance on my side. It was a mail mant cancer, eating inwardly in such such a way that it could not be cut out out. Numerous remedies were used for it, but the Cancer grew stendily worse, until it seemed that I was doomed to follow the others of the family. I took Swift's Specific, which, from the first day, forced out the polson and continued its use until I had taken several bottles, when I found myself well. Eknow that S. S. S. cured me. Winston, N.
